

FATEMA TUJ ZOHURA

MERN Stack Developer | JavaScript | React.js | Next.js | Node.js

Joypurhat, Rajshahi, Bangladesh | +880 1845008107 | fatematz486@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

CAREER OBJECTIVE

A passionate Junior MERN Stack Developer with hands-on experience building responsive and user-friendly web applications. I am eager to contribute to a dynamic team, continuously grow as a developer, and secure a full-time position where I can create impactful digital solutions.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, Next.js, Tailwind CSS, HeroUI, DaisyUI, Responsive Design

Backend & Database: Node.js, MongoDB, Better Auth, JWT, CRUD Operations

Forms & Data Handling: Fetch API, React Hook Form, Filtering, Search, Protected Routes, Role-Based UI, Error Handling

Tools & Deployment: Git, GitHub, VS Code, Vercel, Netlify, npm, ESLint, Prettier, Figma-to-code, Figma, UI Design

AI Workflow & Tools: ChatGPT, Gemini, Claude, DeepSeek, Prompt Engineering, AI-Assisted Debugging, Technical Documentation

PROJECTS

BloodLink | Next.js, Express.js, MongoDB, Tailwind CSS, Better Auth, JWT, Stripe

A full-stack blood donation platform connecting donors with people in need, featuring role-based dashboards for donors, volunteers, and admins.

[Live Demo](#) | [Client Repository](#) | [Server Repository](#)

- Users can create, edit, and manage blood donation requests, and track donation status in real time (pending → in progress → done)
- Users can search and filter donors by blood group, district, and upazila to quickly find a match
- Users can contribute funds securely through Stripe Checkout, with a complete funding history view
- Volunteers can view and update the status of all blood donation requests from a dedicated dashboard
- Admins can manage users (block/unblock, assign roles), monitor funding records, and view platform statistics

IdeaVault | Next.js, Tailwind CSS, Better Auth, CRUD, MongoDB, JWT

A startup idea-sharing platform connecting founders with investors. Users can submit, browse, and interact with ideas by category.

[Live Demo](#) | [Client Repository](#) | [Server Repository](#)

- Users can post, browse, and filter startup ideas by specific categories
- Users can securely sign up and log in to their accounts with robust authentication
- Users can discover trending startup ideas in a dedicated section highlighting the most discussed concepts
- Users can navigate seamlessly across a responsive UI and manage their activities through a personalized user dashboard

SkillsSphere | Next.js, Tailwind CSS, DaisyUI, Better Auth, MongoDB

An online learning platform offering professional courses with browsing, enrollment, and learner progress tracking features.

[Live Demo](#) | [Repository](#)

- Users can securely sign up and log in to their accounts with robust authentication
- Users can browse and filter courses based on category, popularity, and specific instructors
- Users can explore detailed course pages featuring ratings, pricing, and a full curriculum overview
- Users can update their personal profiles, including their name and photo URL
